ICE Growth Investment Approach

Ckredence Wealth™
Your Journey to Prosperity

Any Economy Globally stands on Three Important Pillars

Ckredence Wealth™
Your Journey to Prosperity

Investment

Consumption

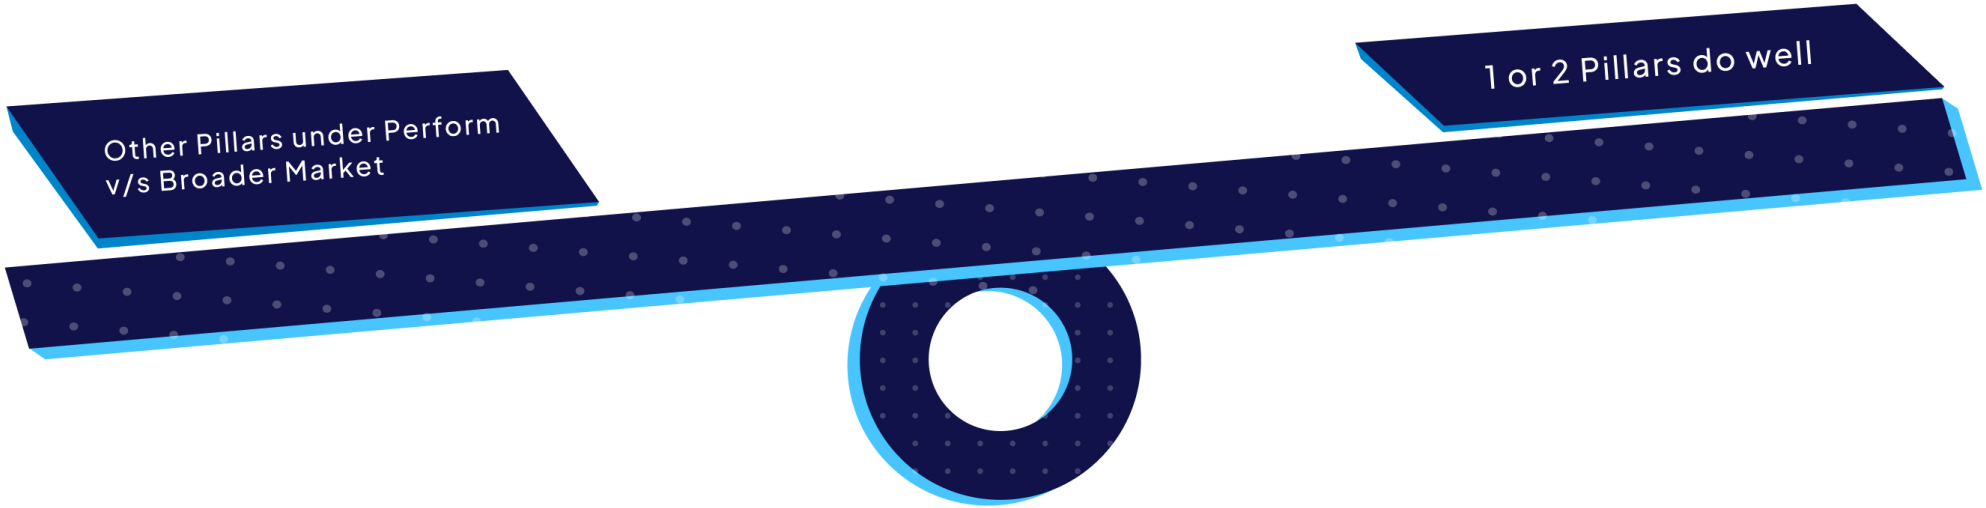

Exports

Pillar Positioning in Market

Ckredence Wealth™
Your Journey to Prosperity

Historical evidences shows that market moves in extreme favour or against particular pillar once trend is clear to it

Stock market discounts these macro trends well in advance and rewards handsomely for proper positioning on winning pillar sectors and stocks

Reason Why these Pillars Perform Individually

Ckredence Wealth™
Your Journey to Prosperity

Exports

- Global Demand Growth
- Cost Competitiveness of Local Players
- Industry Specific Triggers

Consumption

- Welfare Schemes
- Tax reduction in the Hands of Consumer
- Loose Monetary Policy by Regulator amidst Lower Inflation

Investment

- Improved Capital Expenditure
- Tax Incentive Schemes
- Fiscal Health allowing Private Sector Capex

ICE Growth Investment Approach Features

Ckredence Wealth™
Your Journey to Prosperity

- Aims at identifying those remunerative pillar centric trends in advance and take appropriate positioning accordingly.
- Will be extremely overweight on particular pillar / pillars at the cost of another. By doing so, ICE growth approach may disproportionately outperform or underperform broader market for short term.
- Time duration for capturing true potential of remunerative pillar is generally 2 to 3 years where majority of market discounting happens

Ckredence Wealth™
Your Journey to Prosperity

List of sectors belonging from each of the pillars

1

Investment Pillar

Infrastructure, Capital Goods, Cement, PSUs, Metals, Auto – CV, Wholesale lenders, shipping, real estate, power, Oil & Gas etc.

2

Consumption Pillar

FMCG, Auto – 2W & PV, Retail (garments, jewellery, Footwear, Ecommerce, Quick commerce, grocery), FMEG, Consumer durable, Building material, Branded domestic healthcare etc.

3

Exports Pillar

IT, Chemical, Pharmaceuticals, Garments, Industrials or any company where exports are more than 45–50% of revenue.

Ckredence Wealth™
Your Journey to Prosperity

Why ICE Growth Approach is different than Business Cycle Fund?

- BCF takes highly concentrated exposure to very few sectors, where business cycle is expected to turn around.
- ICE takes extremely overweight position on particular pillar/pillars which are comprised of many sectors, so there is no sector specific over concentration.
- BCF moves out of position if cycle turnaround does not happen or benefit of one cycle is over and another sector throws better opportunity.
- ICE where once pillar is identified, position is taken for longer period.
- Relatively higher churn ratio
- Relatively Lower churn ratio

India's per capita income is standing at an inflection point of $2600 from here it should move as per J curve theory.
Hindi hinterland is dark horse We can easily reach next magic number of $11000-18000 per capita

CkredenceWealth™
Your Journey to Prosperity

Why many countries are not able to cross USD11000 – 18000 mark?

2 Reverse demographic dividend ex. China. USA used brain import strategy successfully to counter it.

1 (Commoditiza tion) – Example – Taiwan, Brazil.

3 More focus on cheap labour and less on R&D or value addition. USA kept on focussing innovation and R&D which led to creation of new industries & sectors.

Key Takeaway

Ckredence Wealth™
Your Journey to Prosperity

- 360 Degree Approach
- Risk Management
- Agile Sector Rotation
- Quantitative Analysis

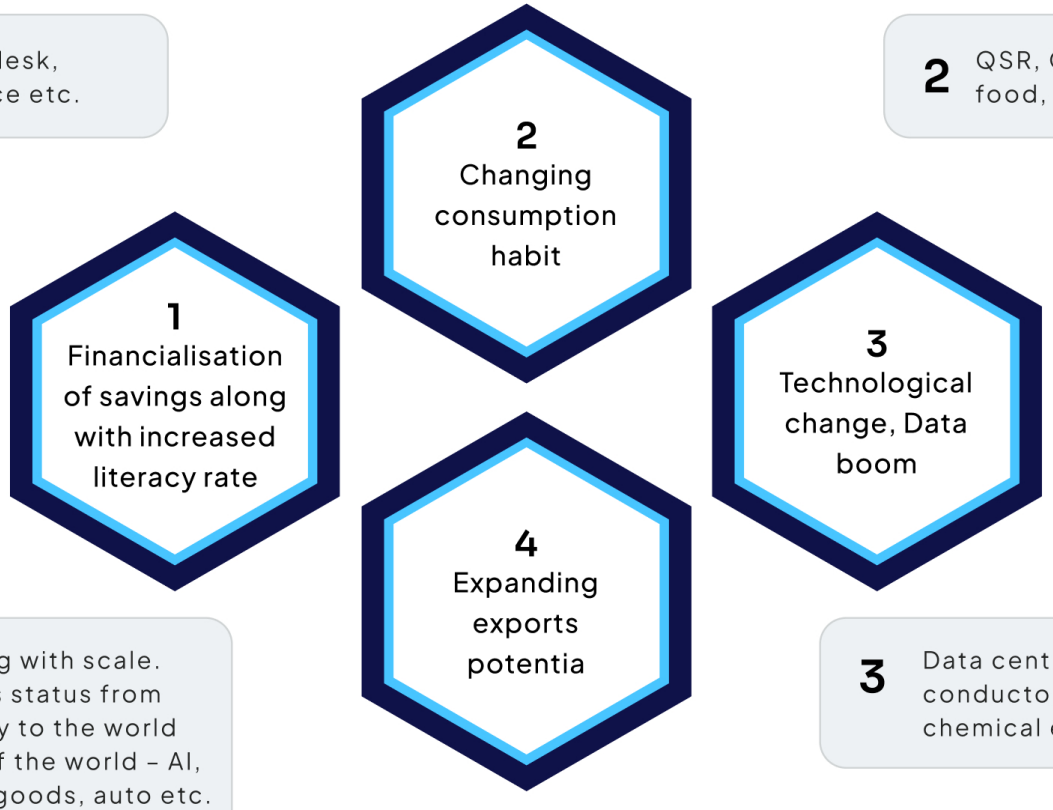

CkredenceWealth™
Your Journey to Prosperity

This fund will also Participate in Next-Generation Businesses (NGB)

1 FinTech revolution, Wealth desk, AMC, Depositories, insurance etc.

2 QSR, Quick commerce, processed food, healthcare, EV, Hybrid etc.

4 India is young and producing with scale. Country is slowly shifting its status from office to the world to factory to the world and eventually digital hub of the world – AI, smart phones, engineering goods, auto etc.

3 Data centre & allied opportunities, semi-conductor, renewable energy, new chemical entity for pharma and agro.

Dynamic Deployment Approach

Ckredence Wealth™
Your Journey to Prosperity

- When we launched the ICE Growth Fund, our market outlook was cautious due to prevailing macro uncertainties.
- 20% of the capital was deployed into the ICE Growth Fund. The remaining 80% was strategically parked in the Wealth Preserve Fund (Liquid Fund) to safeguard capital.
- Wealth Preserve Fund created to preserve capital while waiting for favorable market conditions.
- As market confidence improves, capital will be gradually deployed from the Wealth Preserve Fund to the ICE Growth Fund.
- Ensures disciplined risk management and timely participation in growth opportunities.

Gradual Deployment of Capital
